Craniomandibular Disorders – Assessment and Treatment

Presented by Dr Martin Brunck and Dr Dieter Becker

25-26 November 2017

Arora Hotel, Southgate Avenue, Southgate, Crawley, West Sussex, RH10 6LW
In their daily practice Dr. Becker and Dr. Brunck deal with a lot with dysfunctions of the temporomandibular joint and advise orthodontic specialists and dentists on treatment-strategies and the systemic effects of their therapies. In this seminar they will offer an insight into their AK-procedures for dealing with craniomandibular disorders, and will highlight some background knowledge on dental and orthodontic indications as well as pros and cons of specific therapies.

Topics will include:

• Bite classification and malfunction, typical signs and symptoms

• Principles and practice of AK (Applied Kinesiology) Examination and treatment of Craniomandibular Disorder (CMD)

• The importance and treatment of dental foci

• Indications for dental splints and mandatory characteristics in perspective of the AK-Clinic; pros and cons of common widely used splint models and orthodontic appliances

• Different available pre-produced splint models that you can use in your office. Their philosophies, pros/cons and how to source them

• Bite malfunction in children and disorders of swallowing: AK approach and treatment including the significance of retained primitive reflexes in the development of malocclusions

• Amalgam and Toxic Dental Materials (time permitting)
Guest Speakers Dr Martin Brunck and Dr Dieter Becker

We are pleased to welcome Dr Dieter Becker and Dr Martin Brunck to London for their fourth time teaching for ICAK’s UK Chapter.

Dr. Martin Brunck
